Skyline®

High Performance Diesel Emission Products

AFTERMARKET DPFs & DOCs
The Leading OEM Alternative

Skyline Diesel Particulate Filters and Diesel Oxidation Catalysts

For fleets of any size, equipment dependability and uptime are key factors to delivering quality service and long-term profitability. Skyline® diesel particulate filters (DPF) and diesel oxidation catalysts (DOC) are the leading alternative to OEM filters for a number of important reasons:

- OEM equivalent diesel emission control performance
- Exact-Fit design for easy installation
- Manufactured with new materials, not reconditioned
- High-quality stainless steel for durability and corrosion resistance
- Cordierite and silicon carbide substrates with advanced coatings for optimum performance
- Backed by a 3-year, unlimited mileage warranty
- No core charges
- Designed and built in USA

Exact-Fit Design

Each Skyline DPF and DOC is specifically designed as a direct replacement for the OEM filter. Our Exact-Fit approach makes installation fast and easy without cutting or welding to get you back on the road.

Broad Application

Skyline DPFs and DOCs are available for a wide variety of 2007 and later heavy-duty and medium-duty on-highway diesel applications:

- Heavy-duty trucks
- Medium-duty trucks
- Buses (transit, school, motor coach, shuttle)

Skyline DPF & DOC Applications*

Caterpillar	C7, C9, C13, C15, CT13
Cummins	ISB, B6.7, ISC, ISL, L9, ISM, ISX, X12, X15
Detroit Diesel	DD5, DD8, DD13, DD15, DD16, Series 60
Hino	J05D, J05E, J08E
International/Navistar	N9, N10, N13, A26, MaxxForce 5, 7, DT, 9, 10, 11, 13, 15
Isuzu	4HK1, 6HK1, 4JJ1
Mercedes-Benz	MBE 900, MBE 4000
Paccar	PX-6, PX-7, PX-8, PX-9, MX-11, MX-13
Volvo/Mack	D11/MP7, D13/MP8, D16/MP10

* Model year 2007 and newer engines only. Contact your local distributor or check the Skyline website for engine make and model availability. Skyline is not available for sale or installation in California.

AFTERMARKET DPFS AND DOCS The Leading OEM Alternative

Built with Experience

Developed by an engineering team with decades of diesel emissions control experience, Skyline DPFs combine Exact-Fit design with exceptional quality and extensive performance testing. Skyline means greater value because our design, stateof-the-art manufacturing and testing capability have resulted in a durable DPF with extended service life. Our DPFs are built to last and will keep your fleet running with lower operating costs.

Exceptional Quality

We understand that your operation depends on equipment uptime and reliability. To ensure optimum performance, we operate our own state-of-the-art emissions testing facility and have performed extensive durability and emissions control performance validation testing. Skyline DPFs and DOCs are designed and tested to maximize DPF and DOC reliability, engine performance and service life.

Additionally, compared to remanufactured OEM DPFs and DOCs, Skyline DPFs and DOCs offer reduced exhaust restriction and optimum engine performance, combined with exceptional durability and longer service life.

An Extensive Dealer Network

Skyline products are sold exclusively through authorized distributors with over 1,000 locations in the U.S. and Canada. Contact Skyline to find one.

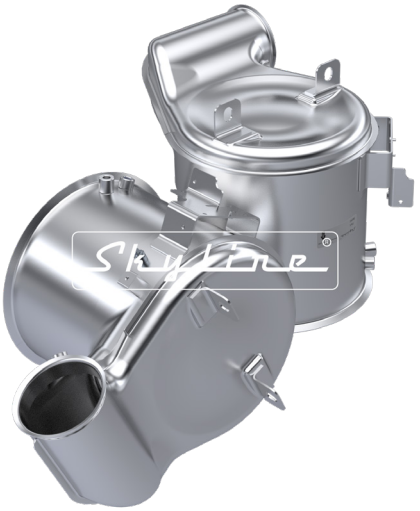
Skyline Emissions is Your Aftertreatment Specialist

Skyline Emissions specializes in the design, development, and manufacture of a complete line of aftermarket DPFs and DOCs, and also offers the associated clamps and gaskets, and OE manufactured nitrogen oxide (NOx) sensors.

Skyline Emissions has leveraged several decades of emissions control system experience from ESW Group®. Founded in 1999, ESW Group is one of North America's leading companies in aftermarket heavy-duty diesel emissions parts, diesel emission control systems, manufacturing, distribution, and emissions testing services.



Designed and Manufactured in the U.S.A.
